

Last Lover

Alice in Videoland

I hear you knocking on the door
I knew you'd come back for more
Is that really how you feel?

I watched at you and set you back
You got a helium stick
Didn't think it was for reaaal...

Love yourself, good for you
Love yourself, good for you
Love yourself, good for you, ooh ooh ooh ooooh
Love yourself, good for you
Love yourself, good for you
Love yourself, good for you, ooh ooh ooh ooooh

This is not the end you're not my last lover
Ah-ah-ah-ah-ahh, ah-ah-ah-ah-ah-ahh

Can't pretend there'll never be another
Uh-ah-uh-ah-uh-ahh, uh-ah-uh-ah-uh-ahh

Walk in the sky, I walk down and I die
And let you in again and again and again

Stealing my mind, without love I go blind
And let you in again and again and again

You really took me for a ride
So really don't match my pride
It's not my feet up the ground

You left my heart, wildly bruised
You left me dazed and confused
You really knocked my head around

You made your bet, lying me
You made your bet, lying me
You made your bet, lying me, Eh-Eh-Eh-Ehhh
You made your bet, lying me
You made your bet, lying me
You made your bet, lying me, Eh-Eh-Eh-Ehhh

This is not the end you're not my last lover
Ah-ah-ah-ah-ah-ahh, ah-ah-ah-ah-ah-ahh

Can't pretend there'll never be another
Uh-ah-uh-ah-uh-ahh, uh-ah-uh-ah-uh-ahh

Walk in the sky, I walk down and I die
And let you in again and again and again

Stealing my mind, without love I go blind
And let you in again and again and again

Hey babe, it's yours or mine
It may hurt a bit but I'll be just fine

Don't get me wrong, I think you misunderstood
It's not me, it's you, it weren't even that good

This is not the end you're not my last lover
Ah-ah-ah-ah-ah-ahh, ah-ah-ah-ah-ah-ahh

Can't pretend there'll never be another
Uh-ah-uh-ah-uh-ahh, uh-ah-uh-ah-uh-ahh

Walk in the sky, I walk down and I die
And let you in again and again and again

Stealing my mind, without love I go blind
And let you in again and again and again

Ah-ah-ah-ah-ah-ahh, ah-ah-ah-ah-ah-ahh

Uh-ah-uh-ah-uh-ahh, uh-ah-uh-ah-uh-ahh
