

# Hard and Strong

Alice Russell

Left the car at the petrol station  
Standing there for all to see  
There's the boat to see up  
Starring back to me

I took your hand in front of all the people  
Got to hear their minds and hurt the screens  
Always wrong  
Sick of stuff and spill the drinks

She is all around you in you and me  
Games of our own creation  
Fall to our hands and feet

Stop the fight it's useless  
You can always stand and ask for more  
Always wrong  
So tell me what you're fighting for

You can't stop the lights from turning on  
Though these words brought back  
They come back hard and strong

So don't open up your window  
Be sure to lock your door  
As she is coming for us  
As the sleeping on the floor

Tell your heart to reach for something more  
All is wrong, watch people spill their drinks  
Yes it's all around us, it's in you and me  
The games that we created, for our hands and knees

Stop the fight it's over  
We will watch others fall  
It's freedom yes for granted  
And what I saw we're fighting for

You can't stop the lights from turning on  
Though these words brought back  
It's the chemical make up biology

You can't stop the lights from turning on  
Though these words brought back  
They come back hard and strong

Stop the lights from turning on (4x)
