Heartbreaker

Alice Russell

There's a river in my mind and it won't stop running just for y ou But there's a thousand forest fires between a sand I can't get through There's a race you got me running and I pray before the sun is down I can't keep holding on

You know this love is taking over me I tried so hard I tried to breathe I tried to carry on

Heartbreaker, I cannot be It's so over, so sad indeed Heartbreaker, so over

Now I know it had to broken up In time they heal so they say But this heart of me chocking just to breathe Another kiss, are made

And there's a race you got me running And I stumbled, I carry on I'm left my dive behind You know this love has taken over me I try so hard, I tried to breathe ye I tried to carry on

Heartbreaker, I cannot be It's so over, so sad indeed

Sign on the door and if that is what it takes to set me free And then I'll turn around and tear it off If that is what I need to do, I will
