

# Twin Peaks

Alice Russell

Here am I ,sleep walking in the light  
With my eyes closed with all my mind  
What am I seeking , when life ain't

I'm so afraid of what might  
I'm filled with fear it might, might  
What it is inside of me

They say that you are the only one  
To talk some sense into me  
They say that you are the only one  
Take away this pain from me  
Can you see  
Can you see

Tender with my heart , don't play with me  
Let's leave this game out , hide and seek  
Pick what's yours just leave me be

They say that you are the only one  
To talk some sense into me  
They say that you are the only one  
Take away this pain from me  
Can you see

What is this inside me  
Is that all there is  
Afraid to look behind me  
But I will  
Time is running out  
Not much left here to gain

They say that you are the only one  
To talk some sense in me  
They say that you are the only one  
Take away this pain from me  
Can you see  
Can you see

Sometimes we rush  
Yes we rush too much  
Sometimes we rush  
Yes we rush too much  
You make me chase you  
Yes something is wrong
