

Two Steps

Alice Russell

Two Steps

Autonomy and chemistry

And then its silly you, and then silly me

I'm feeling good and I'm feeling mighty bad

You got to treasure before the good turns bad

Autonomy and chemistry

And then its silly you, and then silly me

I'm feeling good and I'm feeling mighty bad

You got to treasure before the good turns bad

We take

Two steps forward and then ten steps back

Two steps forward and then ten steps back

Two steps forward and then ten steps back

Two steps forward and then ten

And yes it gets emotional

Those feeling that come up between a boy and girl

And all those words you said you know you didn't mean

The ears that heard them now are feeling very sad

Understanding is the thing, the key

To open locks that you never believed to even see

And something there in your very heart

Knows that you'll both be there and you'll never part

We take

Two steps forward and then ten steps back

Two steps forward and then ten steps back

Two steps forward and then ten steps back

Two steps forward and then ten

Domestic bliss on a cloud named nine

Sweet sexiness, soft caress could be be yours and mine

A cloud named nine

Two steps forward and then ten steps back

Two steps forward and then ten steps back

Two steps forward and then ten steps back

Two steps forward and then ten steps back

And then the girls sing

And then the boys sing

Lets sing together

Good thoughts and feelings into the love machine

Good thoughts and feelings into the love machine

Good thoughts and feelings into the love machine

Good thoughts and feelings into the love machine

We're malfunctioning like robot love

We're malfunctioning like robot love

We're malfunctioning like robot love

We're malfunctioning like robot love
