

Another Love

Alice Smith

You said I was what you wanted
Liar, liar.
You never wanted me that way.

If you don't like it right here
Why would you stay here?
Just to be taken all I did, babe, everything.

If you don't like it, baby,
Find another love, another love.
You don't have the right to take it
I'll find another, another, another, another,
You don't have to stay, you don't have to stay.

I tried to be what you wanted,
But I'm tired, I'm tired.
I don't really need you, anyway.

There's nothing here to fight for, baby,
Be on your way.
You can't be taking what I give, babe, all I give.

If you don't like it, baby,
Find another love, another love.
You don't have the right to take it
I'll find another, another, another, another.
If you don't want me, baby
I'll find another, another, another love
You don't have the right to break me
I'll find another, another, another love.
You don't have to stay, you don't have to stay.

Move on, move on,
Find another love, find another love.
Move on, move on,
Find another love, find another love.

If you don't like it, baby,
Find another love, another love.
You don't have the right to take it
I'll find another, another, another, another.
If you don't want me, baby
I'll find another, another, another love
You don't have the right to break me
I'll find another, another, another love.
You can find another love, another love
You can find another love, another love
You can find another love, another love.
