

Do I

Alice Smith

I must express the way it feels to write all day
without a care, conversation and a coffee
I wanna talk about the good things in my life
I wanna try to be alright

I can care about the way love makes me feel
I can care about the good things that are real
I don't wanna have to think about the ways that I'm so bad
I don't wanna have to think about the things that make me sad

Do I
Do I

There are things that make me smile every day
The jokes we play, the funny things we say
There is nothing like the joy they can see in my eyes
When i think about the man in my life

I can care about the way he makes me feel
I can care because his love makes me feel real
I don't wanna have to think about the ways that we'll be bad
I don't wanna think about the days that we'll be sad

Do I
Do I
Do I

(Well I don't wanna have to think about it)
