

# Love Endeavor

Alice Smith

He's got the smile  
Swimming grace  
Across his face  
And it's been a while  
Since I saw him last  
He left so fast  
And I'd like to try  
To share a kiss  
Or two with you  
And I'd love to touch you  
So many things  
That we can do

So if you do feel the way  
That I feel about you  
Come on  
And share this crush with me  
Oh, baby, this love endeavor  
Don't have to last forever  
Come on  
And share  
Whatever you want with me

He came when I wanted one  
To call all mine  
And to my eye  
He's one of such  
A lovely kind  
I could spend my time  
Trying to sort  
Out your feelings  
But it's not my style anymore  
So tell me darling

Do you feel the way  
That I feel about you  
Come on and share  
Tyhis crush with me  
Oh, baby, this love endeavor  
Don't have to last forever  
Come on and share  
Whatever you want with me

Don't want to mislead you  
Let me tell you  
Don't wanna take you over  
Just come over  
Tell me or just show me  
That you want me  
Love me  
If it's only for a week

There's no time  
To waste for you and I  
No time for fruitless lies  
The sun goes by  
So does the chance to try

Say yes or say good-bye

So if you do feel the way  
That I feel about you  
Come on and share  
This crush with me  
Oh, baby this love endeavor  
Don't have to last forever  
Come on and share  
Whatever you want with me

Would love to touch you  
Kiss you, and caress you  
Come on and share  
This rush with me  
Oh, baby, this love endeavor  
Don't have to last forever  
Come on and share  
Whatever you want with me
