

# She

Alice Smith

She wears high heel shoes at night, at night, at night.  
Nobody knows what's be like.  
I have a song inside the stream and nobody's listening but you,  
you, you.  
It's early morning when the set is through  
You always got to go when the money's due.  
Something I'm gonna have to give,  
If you know what this something is, tell me the truth.

It's a long death, I'm tired of trying.  
Can't you hear me, I'm she, she, she  
Can't you hear me, I'm she, she, she  
Can't you hear me, I'm she, she, she  
Can't you hear me, I'm she, she.

She's got a power that they're trying to take  
Try everything to take it away.  
Like a tower on a stage blind, know he'd be coming back for mor  
e.

It's a long way, she's gonna make it.  
Can't you hear me, I'm she, she, she.  
Can't you hear me, I'm she, she, she  
Can't you hear me, I'm she, she, she  
Can't you hear me, I'm she, she, she  
Can't you hear me, I'm she, she.
