

## With You

Alice Smith

None of my friends are cool,  
I ain't got nothing to do without you.  
Everyday feels the same,  
Won't you come back again and make it new?

R: There's no one that compares to you  
And I want you.  
I don't want to waste another day,  
I just want to be with you.  
Won't you come and take me all the way?  
I just want to be with you.

Day turns into night,  
By your side is where I ought to be.  
Never think disappear,  
Nobody else is here, just you and me.

R:

I don't want to waste another day,  
I just want to be with you.  
Won't you come and take me all the way?  
I just want to be with you.
