

# That's When I Knew

Alicia Keys

Right there  
In a middle of a conversation  
Wasn't anything special you said  
It was just there

Right then  
I didn't have time even over think it  
I looked at you and all of a sudden (haha) I was all in

It's like my knees are all weak and them butterflies  
They were dancing taking all of my air  
From that moment on it was very clear

That's when I knew I fell in love  
That's when I knew you were the one  
That's when I knew you stole my heart away from me  
That's when I knew that I was sunk  
That was the moment that I knew I was in love  
That's when I knew... that's when I knew... that's when I knew

That day  
I didn't know where we were going  
Where the night would end  
I didn't know there was somethin' brewing, and if it was  
I didn't know how much I'd care

That touch  
When you barely held my hand  
I was overcome with feelings I don't understand  
Not in a millions years I didn't think that we'd be here

It's like my knees are all weak and them butterflies  
Got me dancing taking all of my air  
From that moment on it was very very very very clear, ohhhh

That's when I knew I fell in love  
That's when I knew you were the one  
That's when I knew you stole my heart away from me  
That's when I knew that I was sunk  
That was the moment that I knew I was in love  
That's when I knew... that's when I knew... that's when I knew  
Don't you know it, hey  
That's when I knew... that's when I knew... that's when I knew, baby

You know if you know  
You know whatcha feel  
And there's no denying  
I know that's for real  
There's nothing to do  
Just let it in  
Gotta surrender

That's when I knew I fell in love  
That's when I knew you were the one  
That's when I knew you stole my heart away from me  
That's when I knew that I was sunk  
That was the moment that I knew I fell in love

(That's when I knew)

Ohhhh

That's when I knew it... that minute

That's when I knew... it was dependable

Sometimes you get it

Sometimes you get it

That's when I knew it baby

Yeah... that's when I knew... that's when I knew we fell in love
