

# Wait Til You See My Smile

Alicia Keys

When the wind is blowing in your face  
Sometimes in life you don't see straight  
Pray to him  
He will show

When your head is in a certain place  
Nobody around to make you safe  
Stand strong and you will grow

Wait till you see my smile  
Wait till they see your smile

Don't they love to see you down  
Kick you while you're on the ground  
Don't let emotions show

People always speculate  
Don't let it get in your way  
See they say things they don't know  
Wait till you see my smile  
Wait till they see your smile

Hey  
So you're doin' better now  
Everybody comes around  
But you don't really need em'  
Cause you're stronger and you're better and you're ready for whatever  
Sing

Wait till you see my smile  
Wait till they see your smile  
Wait till you see my smile  
Wait till they see your smile
