

Wake Up

Alicia Keys

You used to be my closest alli
In this cold, cold world of deception and lies
We would defend and protect one another
Now I can't tell if we're enemies or lovers
So who's gonna rescue us from ourselves
When we gonna wake up (wake up)
Baby, (wake up) it's time for loving
When we gonna wake up (wake up)
My baby, (wake up) before it's too late

Oh baby
Where did we go wrong, baby
Did this cold, cold world turn us into stone
Well
Now all I battle
Is your ego and your pride
It's ticking like a time bomb
Ready to ignite
Hurt me to fight
So who's gonna rescue us from ourselves
When we gonna wake up (wake up)
Baby, (wake up) it's time for loving
When we gonna wake up (wake up)
My baby, (wake up) before it's too late
When we gonna wake up (wake up)
Baby, (wake up) it's time for loving
When we gonna wake up (wake up)
My baby, (wake up) before it's too late

When the smoke clears
What will be left for us but tears and pain
Why must we argue over the same things
Just to make up and go back again
It's never too late
Living too long
Can't get it right when no one thinks they're wrong
Gotta get out of bed
And take a look at what's going on

Oh when we gonna wake up (wake up)
Baby, (wake up) it's time for loving
When we gonna wake up (wake up)
My baby, (wake up) before it's too late
When we gonna wake up (wake up)
Baby, (wake up) it's time for loving
When we gonna wake up (wake up)
My baby, (wake up) before it's too late
When we gonna wake up (wake up)
Baby, (wake up) it's time for loving
When we gonna wake up (wake up)
My Baby, before it's too late

Oh baby (wake up)
Oh darling (wake up)
When we gonna wake up (wake up)
When we gonna take a look and see (wake up)
What's going on (wake up)

Oh what's going on (wake up)
Seems we're wasting so much time (wake up)
And we're about to lose it all (wake up)
Oh baby baby baby (wake up)
Said I need you baby
Oh I need my baby home (wake up)
Bring my baby back to me (wake up)
Oh baby baby baby (wake up)
Oh oh (wake up)
