

# When Gone Is The Glory

Alicia Keys

R1: When gone is the glory  
When gone is the fame  
When gone is the name  
And you're left with yourself

1. I look in the mirror  
To search your face  
To remember who you are  
Who you ever were

R2: When gone is the glory  
When gone is the shine  
Is gone the whole  
Of your future and pride?

2. I look all around  
To search for a friend  
That no longer stands  
Till the bitter end

R3: When gone is the glory  
When gone is the sun  
When gone is the game  
Then what have you won?

3. Headache and pain  
Of what could have been  
Only you know the truth,  
Of what is within

R4: When gone is the praise  
When gone is the fun  
Is gone, the worth,  
Of what you've become?

4. When I am alone  
At the end of this story  
How does it feel,  
When gone is the glory?
