

Sooooooooooooooooo Whooooooooooooo

So make it real
just make it real

That's not a reason to fire me
That ain't no real reason
It's funny things just cheapen when we disagree
If things got any worse then cheap would turn free

Calico cat's and calico dreams
That ain't too real
Just make it real
Calico cat's and calico dreams
That ain't too real
Just make it real, real

Feel all the seasons flood through you and me
And see what trouble she's in, she's in
But that's not a reason to fire me
That ain't no real reason

Calico cats and calico dreams
That ain't too real
Just make it real
Collisions hurt and abrasions bleed
It's hard to deal when all you do is feel

Campfires swell into monstrous things
That summer heat that's winter deep, that's winter deep

Bridge:
And all your wild winds
They couldn't stop me from flying

(Musical Interlude)

Sooooooooooooooooo

So make it real
Just make it real

Calico cats and calico dreams
That ain't too real
Just make it real
Collisions hurt and abrasions bleed
It's hard to deal when all you do is feel
Calico cats and calico dreams
That ain't too real

Just make it real
Just make it (Just make it, Just make it) Real
(Echo on second time)

(Musical Outro)
