

## Dole Roll

### Alien Ant Farm

Cause if you would have been back by now, love this day  
Don't be wrong don't take it away  
If you would have been back by now  
You'd muster up some sharpness, don't mind my eyes

Two angels sent from down  
They bustin' heads cause we won't pray  
That bitch won't save me  
Why be that low

Cause if you would have been back by now, love this day  
Don't stop  
If you would have been back by now,  
Muster up some sharpness, don't mind my eyes

These angels tore their gown  
Conversion takes more than one day  
That bitch won't save me  
Why be that low

Cause if you would have been back by now, love this day  
Don't be wrong, don't take it away  
If you would have been back by now  
You'd muster up some sharpness, don't mind my eyes

Vein...Pain...Take one away, don't believe my load

Two angles sent from down  
They bustin' heads cause we won't pray  
That bitch won't save me  
Why be that low

Cause if you would have been back by now, love this day  
Don't stop, if you would have been back by now  
Muster up some sharpness, don't mind my eyes

Know, all I know, all I know...and don't be afraid  
Know, all I know, all I know...and don't be afraid
