Dole Roll

Alien Ant Farm

Cause if you would have been back by now, love this day Don't be wrong don't take it away If you would have been back by now You'd muster up some sharpness, don't mind my eyes

Two angels sent from down They bustin' heads cause we won't pray That bitch won't save me Why be that low

Cause if you would have been back by now, love this day Don't stop If you would have been back by now, Muster up some sharpness, don't mind my eyes

These angels tore their gown Conversion takes more than one day That bitch won't save me Why be that low

Cause if you would have been back by now, love this day Don't be wrong, don't take it away If you would have been back by now You'd muster up some sharpness, don't mind my eyes

Vein...Pain...Take one away, don't believe my load

Two angles sent from down They bustin' heads cause we won't pray That bitch won't save me Why be that low

Cause if you would have been back by now, love this day Don't stop, if you would have been back by now Muster up some sharpness, don't mind my eyes

Know, all I know, all I know...and don't be afraid Know, all I know, all I know...and don't be afraid
