

It Could Happen

Alien Ant Farm

Technology won't save you
or your atmosphere
You carry on like nothing's wrong
But it could happen here
Do you live for love?
Do you live for fear?
It's on the other side of life
but it could happen here

Maybe too late
Better find some shelter
Maybe it's fate
But it could happen
Will we ever pick up all these pieces?
I look around and all I see is pieces
And if you think that you are free,
Don't be so naive

Catastrophes don't phase you
Make you realize
There's more to life than causing strife
To build and enterprise
Do you live for change?
Or do you live for fear?
History can prove this
And it will happen here

Maybe too late
Better find some shelter
Maybe it's fate
But it could happen
Will we ever pick up all these pieces?
I look around and all I see is pieces
And if you think that you are free,
Don't be so naive

Don't be so naive
(no we never have and we never will)
Don't be so afraid
(no we never have and we never will)
Don't be so naive
(no we never have and we never will)
Don't be so afraid
(no we never have and we never will)

Maybe too late
Better find some shelter
Maybe it's fate
But it could happen
Will we ever pick up all these pieces?
I look around and all I see is pieces
And if you think that you are free,
Don't be so naive

(Do you live for love?
Do you live for fear?
It's a long way to the bottom

But it could happen here)
