

Summer

Alien Ant Farm

So you finally fessed up to her
All the lies you said
Now you kindly kiss up to her
But the feeling's dead

Several days have passed now
Darker than any damn cloud now
Liquid sunshine falls down
Harder than all the damn hounds

Tried to give you summer, but I'm winter
Wish I could make you spring, but I fall so hard

So you always did what you wanted
We will be on our own
I will soon let you go now
Things will be all right

Several weeks have passed now
Grayer than any gray cloud
Several weeks have passed now
And it's so hard

Tried to give you summer, but I'm winter
Wish I could make you spring, but I fall so hard

And it's so hard to get out of bed
She's impossible to get out of your head

Tried to give you summer, but I'm winter
Wish I could make you spring, but I fall so hard
