Summer

Alien Ant Farm

So you finally fessed up to her All the lies you said Now you kindly kiss up to her But the feeling's dead

Several days have passed now Darker than any damn cloud now Liquid sunshine falls down Harder than all the damn hounds

Tried to give you summer, but I'm winter Wish I could make you spring, but I fall so hard

So you always did what you wanted We will be on our own I will soon let you go now Things will be all right

Several weeks have passed now Grayer than any gray cloud Several weeks have passed now And it's so hard

Tried to give you summer, but I'm winter Wish I could make you spring, but I fall so hard

And it's so hard to get out of bed She's impossible to get out of your head

Tried to give you summer, but I'm winter Wish I could make you spring, but I fall so hard
