

# Longest Highway

Alison Krauss

Lost in the silence  
Surrounded by daydreams  
Holding that someone  
That's holding my heart

Thrilled with the memory  
Of the smile that you gave me  
Gives a close feeling  
Though we're far apart

The longest highway runs between us  
Though you're just a heartbeat away  
When I think of you, my heart knows no difference  
I've got you with me every day

If I could be anywhere  
I'd truly be with you  
Then once feel the embrace  
Of your hand in mine

The longest highway  
Can sure seem forever  
Through every daydream  
I feel closer each time

The longest highway runs between us  
Though you're just a heartbeat away  
When I think of you, my heart knows no difference  
I've got you with me every day
