

## New Favorite

Alison Krauss

New Favorite  
They all say it  
I'll say it too  
You've got a new favorite

You're on standby  
You're right hand guy  
It's nothing new  
You've got a new favorite

Why do you lie about love?  
I saw the light go out

And should I go?  
You won't say so  
I know it's true  
I know you've got a new favorite  
I know you've got a new favorite

You've got a new favorite
