## Mary, Don't Keep Me Waiting

**Alison Moyet** 

Mary Mary don't keep me waiting There's not light enough to see and you know If I'm not there when he gets back home He's going to come out looking for me

Don't take what you can't carry Don't keep what you don't need Full speed please Mary won't you hurry back The sky is black and it's menacing me

Mary did you change your motor car You're just to far away to see

Mary Mary don't keep me waiting There's not air enough to breathe and you know If I'm not there when he gets back home He's going to come out looking for me

Tell no-one where you're going Speak not one word of me Mary please believe me, I, I tell no lie I have an eye for some troublesome things

Mary did you come alone now I'm just too far away to see

Big tree won't you be my cradle Rock me but don't let me sleep Keep me secret if you're able to 'Til Mary comes I'm counting on you

Mary are the headlights blinking there I'm just too far away to see
