

# Whispering Your Name

Alison Moyet

When she said that you were through  
I thought that there was nothing that I could do  
Just because she ran right here  
Doesn't mean I interfered  
Now I'm wondering if we can feel the same  
Cause she keeps whispering your name  
She keeps on whispering your name  
Like she's just waiting

She once told me how she felt  
Didn't just want me to hear it from someone else  
There were unknowns she couldn't know  
But she hoped you two would grow  
And when you didn't she was brought to me in pain

And she keeps whispering your name  
She keeps on whispering your name  
Like she's just waiting

If it's just a little fling a simple thing  
I'll try not to pretend  
If it's just for jealousy she's using me  
That might be hard to mend

Oh what else can I do  
But try to give her more than she got from you  
And when she wakes up suddenly and she says your name to me  
I'll just hope its force of habit and not need

Cause she keeps whispering your name  
She keeps on whispering your name  
Like she's just waiting

Oh tell me what is fair  
When nothing's wrong  
And she just stares  
Like she's just waiting
