

Little lonely
Little cloud over the sea
Through the rainbow
Summer seems long ago
Light in your eyes
Softly when you speak to me
But if you hide...
I won't be up to me
I
I see your shadow
Coming, floating above my dreams
Wherever you go
I'll be calling your name, I feel
Always on your side
If you tell me, that you love me
hold on to your sky
Oh, Amélie mine, help me to fly.

Amélie has gold for every soul
Amélie was told to be my angel
Amélie has melted every stone
Loving Amélie, coming from heaven
Amélie has gold for every soul
Loving Amélie, love will be, will be
Words of Amélie, words I follow
Mélodie de vie, mélo d'Amélie

A little lonely
Photographs over me
Sleeping beauty
No, I'm not I'm ugly
And I wait
To see your sign, Oh, would I
Stay away
Until you are mine
And
Dawn is coming down
Feeling empty, falling slowly
Never let me drown
Oh, Amélie mine, help me to fly.
