

## Cop

Alkaline Trio

Wonder what it was that made you this way  
Maybe as a baby you dropped your rattle  
Still rattles you to this day  
You better practice your evil looks in the mirror  
They won't work on me  
Slowly crawling up from the down low  
The other cops still call you "Fatso"  
A short fuse, a top to blow  
Unhappy wife, shitty life, hit the bottle

Your whole world dropped from under you  
Left you sorry excuses  
Left you with meaningless things to prove  
Like why you became a cop  
Why did you become a cop?

Wonder what it was that made you this way  
Maybe as a kid your toys were taken away  
Still toys with you to this day  
You better practice your evil looks in the mirror  
They won't work on me  
Slowly crawling up from the down low  
The other cops still call you "Fatso"  
A short fuse, a top to blow  
Unhappy wife, shitty life, hit the bottle

Your whole world dropped from under you  
Left you sorry excuses  
Left you with meaningless things to prove  
Like why you became a cop  
Why did you become a cop?  
Shut the fuck up

After my court date I'll forget about you  
I tell my cellmates I'll forget about you  
After the jailbreak I'll forget about you  
After I'm through singing this song I'll forget about you  
I'll forget about you.
