

Don't Say You Won't

Alkaline Trio

It's a girl in here, not as sweet as you
It's a guy like me, some bad tattoos
An empty bar filling up with smoke
And that fly in the ice is like 3 days old

So please don't say you wont be going out today
Cause anywhere I go, wont be anything
If your not hanging around

It's the blackest cloud
And it opens up
When I walk outside, and I'm all alone
An empty cell, the furnace chokes
When I walk through the door, of my broken home

So please don't say you wont be going out today
Cause anywhere I go, wont be anything
If your not hanging around
Cause anywhere I go, wont be anything
If your not hanging around

Please don't say you wont
Please don't say you wont
Cause anywhere I go, wont be anything
If your not hanging around
Cause anywhere I go, wont be anything
If your not hanging around.
