

## Don't Say You Won't

Alkaline Trio

It's a girl in here, not as sweet as you  
It's a guy like me, some bad tattoos  
An empty bar filling up with smoke  
And that fly in the ice is like 3 days old

So please don't say you wont be going out today  
Cause anywhere I go, wont be anything  
If your not hanging around

It's the blackest cloud  
And it opens up  
When I walk outside, and I'm all alone  
An empty cell, the furnace chokes  
When I walk through the door, of my broken home

So please don't say you wont be going out today  
Cause anywhere I go, wont be anything  
If your not hanging around  
Cause anywhere I go, wont be anything  
If your not hanging around

Please don't say you wont  
Please don't say you wont  
Cause anywhere I go, wont be anything  
If your not hanging around  
Cause anywhere I go, wont be anything  
If your not hanging around.
