

# I Found Away

Alkaline Trio

Midway on our life's journey, I found myself  
In dark woods, the right road lost. To tell  
About those woods is hard - so tangled and rough  
And savage that thinking of it now, I feel  
The old fear stirring....

Stumbling through the dark with a broken heart, all alone at it once  
again  
Seeping in like a feeling you haven't felt since way back when  
In the dead of that night, like the Summer of Sam  
I caught word of the commotion you cause via telegram  
And got all worked up, we got all worked up

I found away  
Over the fear and through the flames, I'm diving in  
Don't follow me, stay right here I'll be back for you someday  
I found away, it'd be best if you just stayed  
It's not safe, don't follow me  
I found away, I found away

Frozen in the lights of a locomotive, tied to the tracks again  
You said you haven't felt this comatose since you can't remember when  
You fly off the handle every time we sleep, straight off the deep

I found away  
Over the fear and through the flames, I'm diving in  
Don't follow me, stay right here I'll be back for you someday  
I found away, it'd be best if you just stayed  
It's not safe, don't follow me  
I found away, I found away

Away...  
Away...

From the top of my lungs the truth shall be sung, sharp and damning  
Violently stabbing at secrecy  
That look on your face, it's more than I can take it's scaring  
The living hell straight out of me

I found away  
Over the fear and through the flames, I'm diving in  
Don't follow me, stay right here I'll be back for you someday  
I found away, it'd be best if you just stayed  
It's not safe, don't follow me  
I found away, I found away

I found away, I found away, I found away  
I found away, I found away, I found away  
I found away, I found away, I found away  
I found away, I found away, I found away
