## If You Want Me

I've never felt this way before Girl everytime i see you My heart hit the floor yea So beautiful what can i say You're my sunshine on a cloudy day

You have everything i need And there is nothing more That i could ever want If your love is for sure Girl i wantcha all the time I keep giving you all the signs Oh i just really need to know

If you want me baby let me know and If you need me then you got to Let your love show When you do what you do I can't help loving you Girl you need to let me What's goin' on? what's goin on?

I need to know what's on you mind 'cause you know i'd do anything To make you mine I wanna be the only one To keep you feelin' good all the time

Well you can tell me anything And i will be alright But girl just stop pretending I can't live a lie But, girl you put me on this high And i hope you realize That i only wanna be your man

If you want me baby let me know and If you need me then you got to Let your love show When you do what you do I can't help loving you Girl you need to let me What's goin' on? what's goin on?

If you want me baby let me know and If you need me then you got to Let your love show When you do what you do I can't help loving you Girl you need to let me What's goin' on? what's goin on?

If only you take this chance i promise you I won't let you down Girl i (girl!), i could be there for you If you want me Gotta tell me what's goin on If you want me baby let me know and If you need me then you got to Let your love show When you do what you do I can't help loving you Girl you need to let me What's goin' on? what's goin on?

If you want me baby let me know and If you need me then you got to Let your love show When you do what you do I can't help loving you Girl you need to let me What's goin' on? what's goin on?

If you want me baby let me know and If you need me then you got to Let your love show When you do what you do I can't help loving you Girl you need to let me What's goin' on? what's goin on?
