

# Think You're the One for Me

All 4 One

Baby - i think i've finally found - the girl of my dreams  
And lady - i just need to know - if you feel the same about me

'cause no one's ever touched me quite the way you do  
You've got me thinkin' 'bout you day and night  
And i've just got to know if it's the same for you  
Do you wanna spend 4-ever by my side?

Think you're the one for me  
And you'll always be the one that i love  
I love you baby  
Think you're the one for me  
And you'll always be the one that i love

Oh girl - when i feel your heart - beating so close to mine  
I feel so helpless - i must be falling in love  
Cause i want you all of the time

Girl - you know that i will never let you down  
You know i'll always be here 4 you  
I promise you that i will never play around  
I swear i'm always gonna be faithful and true

Think you're the one for me  
And you'll always be the one that i love  
Said i love you baby  
Think you're the one for me  
And you'll always be the one that i love

And lady you will always be  
The only girl i want in my life  
And there is only one place that i'd rather be  
And that's forever and ever by your side

I wanna be your man  
Who cares for you  
Who loves you

Think you're the one for me  
And you'll always be the one in all my dreams  
Think you're the one for me  
And you'll always be  
Think you're the one only one, one for me  
You're the girl of my dreams  
Think you're the one only one, one for me

Think you're the one for me  
And you'll always be the one that i love  
Think you're the one for me  
And you'll always be the one that i love  
Think you're the one for me  
And you'll always be the one that i love
