

# Until You Go

All 4 One

I've been meaning to tell you  
That from far away, baby you caught my eye  
You must be from heaven  
Cause the way you move  
I can't deny that tonight i want to kiss you  
Ooh i can't resist you  
Everything gonna be alright-gonna be alright

Until you go, oh baby, until you go  
Let me hold you... all through the night  
Until you go, oh girl, i want you know  
That tonight you'll be mine

Until you go, oh baby, until you go  
Let me hold you... all through the night  
Until you go, oh girl, i want you know  
That tonight you'll be mine

Just let me hold you  
Let me find away to show you what's in my heart  
Now and forever, just the two of us  
And we'll never be apart

'cause tonight i wanna kiss ya, ooh, i can't resist ya  
Everything gonna be alright  
Gonna be alright

Until you go, oh baby, until you go  
Let me hold you... all through the night  
Until you go, oh girl, i want you know  
That tonight you'll be mine

Until you go, oh baby, until you go  
Let me hold you... all through the night  
Until you go, oh girl, i want you know  
That tonight you'll be mine

From the moment i saw you...  
I knew you were the one for me  
And know that we are together...  
I don't want to set you free...

Until you go, oh baby, until you go  
Let me hold you... all through the night  
Until you go, oh girl, i want you know  
That tonight you'll be mine

Until you go, oh baby, until you go  
Let me hold you... all through the night  
Until you go, oh girl, i want you know  
That tonight you'll be mine  
Until you go, oh baby, until you go  
Let me hold you... all through the night  
Until you go, oh girl, i want you know
