

Don't be scared

All Ends

Don't be scared..
You know I'm with you all the time
I know it hurts when life just seem
to fade away..
Please be strong and keep on trying
'though it's hard to face
Don't forget to smile, and then you
won't cry no more..

See my strength and feel my faith
Helping you to fight the pain
Oh, I lift you up and keep you safe
And bring you happiness again

You'll be OK..
As long as you still have your faith
You're not alone, 'though it may
seem I'm far away..
Find your strength in all the love that
is surrounding you
Never stop believing, you'll get through this..

See my strength and feel my faith
Helping you to fight the pain
Oh, I lift you up and keep you safe
And bring you happiness again

Find your strength in all the love that
is surrounding you
Never stop believing.. We'll get through..

See my strength and feel my faith
Helping you to fight the pain
Oh, I lift you up and keep you safe
And bring you happiness again
