

I know who I am

All Ends

Today I woke up with a clear mind
Like nothing could get in my way
Sometimes you just feel what is right for you
Not really sure what might happen..

All my life I've been trying
to never give up
All my life I've been fighting
Always known what I've got
Now I know it was worth it
I've got no regrets
I will make it! I know who I am!

I can't believe my life has just begun
Finally I know exactly where I'll be
New thoughts are coming
I see my destiny, yeah
Sure I will make it - I know who I am

This feeling just keeps getting stronger
And I've waited for this day for so long
I'm done feeling bad for what I can do
Nothing can stop me anymore!

All my life I've been trying
to never give up
All my life I've been fighting
Always known what I've got
Now I know it was worth it
I've got no regrets
I will make it! I know who I am!

I can't believe my life has just begun
Finally I know exactly where I'll be
New thoughts are coming
I see my destiny, yeah
Sure I will make it.. oh.. yeah..

There's no need..
'Cause you can't hold me back
I really know it was worth it

All my life I've been fighting
Always known what I've got
I will make it! I know who I am!

I can't believe my life has just begun
Finally I know exactly where I'll be
New thoughts are coming
I see my destiny, yeah
Sure I will make it - I know who I am
