

# We Are Through

All Ends

Everytime you called my name  
I was always there for you  
But when I needed you  
To hold me an excuse

Now leave me alone  
Just get out of my life  
You keep pretending that we're ok  
That's not true  
'Cause we are through

I gave my life and love to you  
I can't change what I've done  
The past a better life for me has come  
And I promise That you'll find love again I know you want it all to s  
top so Turn around and  
Don't look back you'll see the pain will go away

Not a word you say is true  
What do you want from me?  
I believed in us for so long  
I can't stand you anymore  
'Cause we are through

I gave my life and love to you

I can't change what I've done  
The past a better life for me has come  
And I promise That you'll find love again

I know you want it all to stop so turn around and  
Don't look back you'll see the pain will go away

We're done now I've had it  
I promise you it's for the best  
Just move on and you sure will find somebody new

I gave my life and love to you

I can't change what I've done  
The past a better life for me has come  
And I promise That you'll find love again

I know you want it all to stop  
So turn around and  
Don't look back  
You'll see the pain will go away
