

## Parallel Park

All Girl Summer Fun Band

Parallel park, parallel park  
Parallel park, parallel park  
Five o'clock on Sunday I just want to see my baby  
But he's got me driving around the block  
Looking for a spot for half an hour now  
I don't know if I'll ever fit here  
Parallel park, parallel park  
Parallel park, parallel park  
It's getting late and I'm so very frustrated  
You're looking down on me from the fourth floor  
Your love awaits but someone stole the spot I was waiting for  
One more time around then I'm getting out of here  
Parallel park, parallel park  
Parallel park, parallel park  
Parallel park, parallel park  
Parallel park, parallel park  
Why should I have to come here  
Every time I wanna see you  
I never had to worry about  
Making my way around this town  
Before I met you  
Parallel park, parallel park  
Parallel park, parallel park  
Parallel park, parallel park  
Parallel park, parallel park
