

# Dope Noize

All Saints

When you hear the dope noize  
Let me see you sing it  
Rocking out the four walls  
Tell me, can you hear it?  
When you hear the song call  
Let me see you rock it  
Knocking on your front door  
Let it in, I feel it

Uh-oh there's no work to do  
With my friends making happy  
Turn it up, feeling good  
The bass is mad, we go crazy  
Make it loud now

When you hear the dope noize  
Let me see you sing it  
Rocking out the four walls  
Tell me, can you hear it?  
When you hear the song call  
Let me see you rock it  
Knocking on your front door  
Let it in, I feel it

We always know how to flow  
With my friends we go on and on  
Go on and on and  
There ain't no way we go home  
No  
Until the sun comes up in the dawn  
Make it loud now

When you hear the dope noize  
Let me see you sing it  
Rocking out the four walls  
Tell me, can you hear it?  
When you hear the song call  
Let me see you rock it  
Knocking on your front door  
Let it in, I feel it

Let me see you rock it  
Can you feel it?  
Knocking on your door  
We love being out  
Knocking on your door  
Let me in now  
Knocking on your door  
Let me in now  
Knocking on your door  
Let me in

When you hear the dope noize  
Let me see you sing it  
Rocking out the four walls  
Tell me, can you hear it?  
When you hear the song call

Let me see you rock it  
Knocking on your front door  
Let it in, I feel it

When you hear the dope noize  
Let me see you sing it  
Rocking out the four walls  
Tell me, can you hear it?  
When you hear the song call  
Let me see you rock it  
Knocking on your front door  
Let it in, I feel it
