

## Eradication

### All Shall Perish

Leading the tables turn  
As we fail not to create  
A false Sense of Edradication  
To revel in, separation  
I detest this life  
Inching but seeming to end this life  
Surprising your neurons its all with time  
That meaning will creep inside  
Much soon you will find,  
You'll find you're closer, closer to the fucking  
Fight  
Closer to the fucking.....  
Fire it's depleting but the spark will soon  
Rekingdle all that truly recedes  
I have no place to show you it will come trust  
Me  
You soon shall see  
I wish that our lives weren't  
The facade they seem to be  
Some how the purpose was just lost for me  
Left to your discretion  
You decide.... Your only way  
Don't let me the oppression  
Manipulate your only way  
Leading the times have turned to show the  
Mass decay of your will to fight  
In separation only to see Eradication
