

Just close your eyes
Take in the tune I send to you
Oh my lullaby
Can soothe when your friends have moved to Neptune
Chorus:
It must be the way that I can hear you say this now
Don't be afraid
Just know that I'll be with you somehow
All of your cries
Soon they will drown in my lullabies
Just close your eyes
Just close your eyes
Don't be afraid
When the day has become your lion's den
It's pure concentrate
Your comforting words have marked a trend
I'm giving up
Wishing on the falling stars
I'm living up to something new
I've made a vow
It's taken me high
It's taken me far
I'll keep singing your rune
You'll hear it all around
Repeat chorus
