

## Thank You, Goodnight

All Star United

O Lord, it's embarrassing  
I have been a cause for concern  
"Hallelujah" all the angels sing  
When castaways choose to return

And so before this sun sets  
I will rest with no regrets  
I'm ending with a phrase

Thank You, goodnight  
At the end of the day  
You've taken me somewhere  
Thank you, goodnight  
All the love that You gave  
Has taken me somewhere good

Gone is my eloquence  
Apologies come easy for some  
With a Savior, this is making sense  
I'm sorry for the things I've become  
And so before I lay down  
I'm making my rebound  
By ending with a phrase

Tonight I'm crawling  
Back from the fallen  
Like a desperate stray  
To where I was before I fell away
