

## Welcome To Our Big Rock Show

All Star United

Five guys take a ride, drive a day and half a night  
Get to see some pretty scenery  
But if that's all there is to this  
This band would split right down the seams  
Southbound, static on the radio  
We left town but where we're goin' I don't know  
Somewhere we're gonna play another show  
Quick get off and gas up at the Conoco  
We're driving  
We drive against the grain  
Like postmen in the rain  
Welcome to our big rock show  
Wind us up and watch this puppy go  
Hope you heard a single word we said  
One little rock to rattle in your head  
Hey kid, pit mosh, please avoid the flashpot  
Yeah, it's really funny 'til an eyebrow gets singed off  
Your mother's got nothing here to fear or dread  
Our abrasive is gentle on baby's skin head  
Soundchecks, don't forget the spandex  
This mix is sounding like a bad train wreck  
It takes some spit and grit and sweat  
To give you more than you expect  
We're driven  
To give you what we know  
Like postmen through the snow  
Welcome to our big rock show  
Wind us up and watch this puppy go  
Hope you heard a single word we said  
One little rock to rattle in your head  
Got a cryptic coder  
On the microphone  
Find the secret message  
Buried in our big rock show
