

## And Death in My Arms

### All That Remains

And death lay in my arms as colors fade  
From gold to gray

Gray now broken my foolishness displayed  
Hands tight around her throat this violent loving embrace

Lying restful safe in my arms  
Steady rhythm trust she'll come to no harm  
Feel her tremble as the nightmares begin  
Sleep the horror and the nightmare, it ends

I hear her whisper a sweet sound fanning the flames  
These thoughts consume me and leave me wallowing

Gray now broken my foolishness displayed  
Hands tight around her throat this violent loving embrace  
My fingers tremble her lips move silently  
One last I love you crush my resolve again

Lying restful safe in my arms  
Steady rhythm trust she'll come to no harm  
Feel her tremble as the nightmares begin  
Sleep the horror and the nightmare, it ends
