

## Empty Inside

## All That Remains

I can't show pain  
Long for days  
When I am free to feel

Don't want to lose everything  
Just want to feel again  
My heart would burst for you  
If that would make things right

I don't feel anything  
Outside the pain you bring  
Starting over doesn't  
Look so bad this time

I am not empty inside  
Though I long to make this right

Emotions still touch me  
Still I can't feel a thing  
Like ghosts they melt into the fog  
And leave me cold

Only shadows and impressions  
Are left for me to hold  
My heart would burst for you  
If that would make you whole

I am not empty inside  
Still I long, to make this right  
I am not empty inside  
Though I long to make this right

I am not empty inside  
Still I long to make this right  
I am not empty inside  
(Empty inside)  
Though I long, to make this right  
(Make this right)

Don't want to lose everything  
Just want to feel again  
My heart would burst for you  
If that would make things right

I don't feel anything  
Outside the pain you bring  
Starting over doesn't  
Look so bad this time

I am not empty  
I am not empty  
I am not empty  
I am not empty
