

Not Fading

All That Remains

I know, it's not so easy to know
Just how far I can go without you
The time that you spend sleeping alone
Wondering if I still know you're waiting

And if you're lonely, wondering about me
Call out my name; I'll be there

If I am gone, and you're alone,
I still can feel you; it's not fading
Not fading, my heart's for you
It's all along you've kept me strong
I still can feel you; it's not fading
Not fading, my heart's for you

In days when I don't want to go on
Feel I can't still be strong without you
Yet I can't think of anything lost
Let I've worked for so long and found it

And if you're lonely, wondering about me
Call out my name; I'll be there

If I am gone, and you're alone,
I still can feel you; it's not fading
Not fading, my heart's for you
And all along you've kept me strong
I still can feel you; it's not fading
Not fading, my heart's for you

I can still feel you, it's not fading
My heart is always with you

And if you're lonely, wondering about me
Call out my name

If I am gone, and you're alone,
I still can feel you; it's not fading
Not fading, my heart's for you
And all along you've kept me strong
I still can feel you; it's not fading
Not fading, my heart's for you
