

## Stand Up

## All That Remains

I know, no one had ever dreamed that  
We were this strong and we'd achieve this  
So long the doubt and all believed it  
And now it's come for all to see yeah

We've worked, so hard  
Pushed every day now  
See the blood sweat and tears on our face  
We've never been stronger  
There's no holding back now  
So you can hear us say

Stand up, Stand up we were right  
You know we can't be more justified  
And they can't deny it  
Stand up, stand up we were right  
We've come too far just to fade away  
And they can't deny it

I've heard the words those in the circle say  
"So what, they're done, don't matter anyway"  
Well here's your proof, they're all silent today  
And there's no way they can take it away.

We've worked so hard  
Pushed every day now  
See the blood sweat and tears on our face  
We've never been stronger  
There's no holding back now  
So you can hear us say

Stand up, Stand up we were right  
You know we can't be more justified  
And they can't deny it  
Stand up, stand up we were right  
We've come too far just to fade away  
And they can't deny it

We never said it was easy  
And no one gave us a thing  
Now that last part is so pleasing  
We're stronger than you think

Stand up, Stand up we were right  
You know we can't be more justified  
And they can't deny it  
Stand up, stand up we were right  
We've come too far just to fade away  
And they can't deny it

Stand up, stand up we were right  
(They can't deny it)  
Stand up, stand up we were right
