

# A Party Song (The Walk of Shame)

All Time Low

I took a walk for the very first time  
On the dark side of the dance floor  
Lit a match just to heat things up  
But I got more than I bargained for

Mixed drinks, mixed feelings of elation  
I should have known it was a one-night invitation

Don't sweat it, forget it  
Everything is a-okay  
Just let it go then it's  
Off to find another face  
I'll make you come just to watch you leave  
You walk around with my heart on your sleeve  
Don't sweat it, it's over now  
Our time ran out

I took an oath, but I'm giving it up  
You didn't have to see things my way  
Nothing more than a casual fuck  
Isn't that just how we operate?

Let's drink to feelings of temptation  
You and I, we're an overnight sensation

Don't sweat it, forget it  
Everything is a-okay  
Just let it, go then it's  
Off to find another face  
I'll make you come just to watch you leave  
I walk around with your heart on my sleeve  
Don't sweat it, it's over now  
Our time ran

Outside, the brake light's started to dim  
I feel the tension that's been pulling us in  
And then we do it again  
So we can feel all right  
Falling in love for the night

Don't sweat it, forget it  
Everything is a-okay  
Just let it go then it's  
Off to find another face  
I'll make you come just to watch you leave  
You walk around with my heart on your sleeve  
Don't sweat it, it's over now

Our time ran out  
Our time ran out  
Our time ran out  
Our time ran out  
Our time ran out
