

Drugs & Candy

All Time Low

I can't take another hollow point conversation
It's getting harder to fake
The sound of you, an outlasting vibration
There's something I can't shake

The sweetness of you on my tongue
I breathe you in, you fill my lungs
A bitter taste, surrender waste
Another weakness

You and me are like drugs and candy
Take one down for the young and easy
You've got me out of my head
I fill this space in your bed
I got the beat of the breakdown, breakdown
You and me are like drugs and candy
And I don't wanna give it up

You caught me in a moment of redemption
There's nothing to explain
You've had me on the edge of indiscretion
You said you feel the same

The sweetness of you on my tongue
I breathe you in, you fill my lungs
A bitter taste, surrender waste
Another weakness

You and me are like drugs and candy
Take one down for the young and easy
You've got me out of my head
I fill this space in your bed
I got the beat of the breakdown, breakdown
You and me are like drugs and candy
And I don't wanna give it up

Drugs and candy
Drugs and candy

The sweetness of you on my tongue
I breathe you in, you fill my lungs
A bitter taste surrender waste
Another weakness

You and me are like drugs and candy
Take one down for the young and easy
You've got me out of my head
I fill this space in your bed
I got the beat of the breakdown, breakdown
You and me are like drugs and candy
And I don't wanna give it up
Drugs and candy
No I don't wanna give it up
Drugs and candy
You've got me out of my head
I got the beat of the breakdown
And I don't wanna give it up

Drugs and candy
