## All Time Low

Tonight, we lie awake  
Remember how the coffee made us shake on those long drives?  
One more long night

Another seven days  
Heartbeat racing  
The interstate, my home tonight  
For one more long night  
I'm sure as hell the happiest I've ever been

We get high, we let go  
We've got more than we know  
My friends are a different breed  
My friends are

There's a ghost in this room  
I think I'll name it after all of you  
And watch it hang over my bed like decorations celebrated  
Memories, they came and went in light of all the time we spent  
Listening to everything our parents told us not to take in

Now make a change  
I'm counting down  
The mile marks to every town  
And falling more in love  
With the distance put between us

We get high, we let go  
We've got more than we know  
My friends are a different breed  
My friends are everything  
Make this last, take it slow  
We've got it all figured out for now  
So let us live our lives without a doubt

Tonight we lie awake  
Remember how the coffee made us shake on those long drives?  
One more long night  
Another seven days  
Heartbeat racing  
The interstate, my home tonight  
For one more long night

From coast to coast, I'll make the most  
Of every second I've been giving with this crowd  
Without a doubt, you're all I dream about  
At night we lie awake  
With stories taking us back to the nights we felt alive  
The nights we felt alive

I would've married you in Vegas  
Had you given me the chance to say "I do"  
Could I make it more obvious, could you  
Be anymore obvious

I would've married you in Vegas  
Had you given me the chance to say "I do"

Could I make it more obvious, could you  
Be anymore obvious, could you?
