Up from the mud, one seed, four seasons Just because is good enough of a reason Every pain you've ever known Was coaxing diamonds out of coal

Have no fear at all
You have a soul, it can't be owned
Take the heat, take control
You're free and that's the only way to be

Up from the dust, one heart, ten fingers
Just because is good enough, it's the only reason
Every pain you've ever known
Was coaxing diamonds out of coal

Have no fear at all You have a soul, it can't be owned Take the heat, take control You're free

Every pain you've ever known Was coaxing diamonds out of coal

Have no fear at all
You have a soul, it can't be owned
Take the heat, take control
You're free and that's the only way to be
