

Educated Idiot

All

I recognize the pieces but
I don't know where they fit.
to analyze the universe to bits.
I know exactly just enough
I know all there is to know
I'm all messed up, nowhere to go.
About nothing at all.
Ask me my address I can't recall.
It's my fault.
I don't know.
I'm an educated idiot.
I'm smart enough to know
I know how an engine works
I know where Old Zealand is
I don't know how to drive.
But I barely know my left feet from my right.
I'm not sure if I fit.
I recognize the species but
To analyze the universe to bits.
I quit.
We know exactly just enough
Smart enough to know
an educated idiot
I'm an educated idiot
Sure is good to know
I'm not alone.
